5G CELLULAR ROUTER FOR TRANSPORTATION, MOBILE ENVIRONMENTS AND RAIL/METRO

Digi TX64 5G / LTE-Advanced Pro Cellular Router

High performance cellular router with dual redundant communications for complex transit and transportation systems

Ideal for challenging transportation and mobile environments, Digi TX64 is a 5G and 4G LTE-Advanced Pro cellular router with true enterprise class routing, security, firewall and integrated VPN. It offers a flexible interface design with an integrated Wi-Fi 6 access point, USB, serial and 4-port Ethernet switch, as well as a variety of configuration options including GNSS with untethered dead reckoning (UDR) and multiple geofence support — easy to deploy and centrally managed via Digi Remote Manager (Digi RM), which is included in your Digi 360 solution.

Digi TX64 5G Rail Cellular Router

5G railway-rated cellular router customized for both on-board heavy and light rail railways and metros

Ideal for challenging rail transportation environments, the Digi TX64 5G Rail router offers 5G/4G/3G cellular connectivity with true enterprise class routing, security, firewall and integrated VPN — easy to deploy and centrally managed via Digi Remote Manager (Digi RM), which is included in your Digi 360 solution. It offers

a flexible interface design with an integrated Wi-Fi 6 access point and client, USB, serial, inertial-guided GNSS, Bluetooth® and 4-port Gigabit Ethernet switch, as well as a variety of configuration options.
