

4X4 BOX AI300 SERIES DE ASROCK INDUSTRIAL

ASRock Industrial's 4X4 BOX AI300 Series is a compact AI computing powerhouse featuring AMD Ryzen™ AI 300 Series processors. With up to 50 TOPS of NPU performance, it supports Copilot+ PC experiences and AI-enhanced multitasking. The series offers up to 96GB DDR5 5600MHz memory, quad display support up to 8K, and versatile connectivity including dual LAN ports and Wi-Fi 6E. Key features include AMD Ryzen™ AI 7 350 and AI 5 340 processors, enhanced memory and storage capabilities, and comprehensive connectivity options. The series is designed for AI PCs, gaming, content creation, and AIoT applications. ASRock Industrial also introduces the 4X4 AI300 Motherboard Series, sharing similar specifications and features. This compact motherboard series is ideal for AI PCs, business, and embedded applications, offering dual-channel DDR5 memory support, dual LAN ports, and extensive storage options. Both series embody ASRock Industrial's commitment to advancing compact AI solutions without compromising performance.
