

# COM-HPC ECOSYSTEMS THE GAME-CHANGERS FOR HIGH-PERFORMANCE DIGITIZATION PROJECTS

Our COM-HPC ecosystems are specifically engineered to provide everything developers need to be first to market with industry-leading solutions that deliver highest performance and bandwidth for all the new and emerging AI-powered edge computing and embedded server applications.

## COM-HPC Server Ecosystem

For high-performance, sustainable, and upgradeable edge server designs in harsh environmental conditions

- Data center level performance
- Extended temperature support
- Real-time capable

## COM-HPC Client Ecosystem

For next-generation edge computing, revolutionizing embedded edge client performance

- Multi-display support
- High-performance CPU+GPU
- Extensive connectivity with PCIe Gen 5, USB4, MIPI CSI, etc.

## COM-HPC Mini Ecosystem

Delivering unmatched performance and I/O density to space- and power-restricted rugged applications

- Credit-card size form factor
- High-performance CPU+GPU
- Extensive connectivity with PCIe Gen 5, USB4, MIPI CSI, etc.

## Congatec

Congatec is a rapidly growing technology company focussing on high-performance embedded computing products, so-called computer-on-modules and industrial single board computer.
