

FRONT GLASS AND DISPLAY OPTIONS FOR HMI SOLUTIONS

To develop the optimum HMI solution with front glass, touch sensor, display and PCBA. Lamination and optical bonding of the display are carried out in-house in the clean room. We also offer bonding options and fibre optic integration for e-paper displays. Various options are available for the choice of front glass and surface finish. We can screen print the front glass according to your specific requirements.

Alcom is your specialist for standard & customised HMIs. The design of HMIs for the most demanding applications requires a high level of expertise and experience. We offer the optimum HMI solution with front glass, touch sensor, display and PCBA for your application.
