

NEW SBC35 SERIES 3.5" SINGLE BOARD COMPUTER

SBC35-RPL is powered by Intel's latest processors, which offer improved performance, power efficiency, and support for the latest technologies based on Intel's 13th generation of 3.5-inch Single Board Computers (SBCs) offer a range of advanced features and capabilities for a variety of embedded applications.

The latest Intel processors provide high-performance computing capabilities, enabling SBC35-RPL to handle demanding tasks such as data processing, machine learning, and video playback. SBC35-RPL offer a wide range of I/O interfaces, including USB, Ethernet, HDMI, and more, providing flexible connectivity options for various peripherals and devices, and it's compact form factor provides a cost-effective solution for applications where space is a premium.
